

February 5, 1975

hold a public hearing on it.

SENATOR SYAS: Well, I am not going to block your public hearing. I am just asking a question. Can you turn over state inspections, government inspections to a private concern who are in the process of inspecting themselves.

SENATOR SCHMIT: I think we can and I would like to have Senator Nichol comment on it. I think he's more informed on that.

SENATOR SYAS: I don't think you can.

SENATOR SCHMIT: I think we can, Senator, but that's all-- we will (inaudible) about it some other time.

SENATOR NICHOL: Mr. Chairman, may I just say a word. It was a law that was passed several years ago and at that time the Non-Stock Cooperative Beet Growers Association were not getting along very well with the Great Western Sugar Company and they felt that the tare, the tares that were being taken were not correctly done, so they asked the Legislature for a law whereby the state of Nebraska would intervene and take these tares so that they were getting a fair shake. Since that time, the relationship between the Great Western and the Non-Stock Cooperative Beet Growers has greatly improved and they would like to do this between themselves and not have the state be in it anymore.

PRESIDENT: This is a machine vote. Senator Schmit's motion is to introduce this bill. It takes 30 votes. Is there any further discussion? Record your vote. Have you voted? Record, Mr. Clerk.

CLERK: 40 ayes, 0 nays, 9 not voting.

PRESIDENT: The motion passes and the bill is introduced.

CLERK: Mr. President, I have another motion from Senator Schmit to move the introduction of the attached bill. It is request 482. It is a bill--read.

PRESIDENT: Senator Schmit.

SENATOR SCHMIT: I move the adoption of the bill and the reason for this bill is because of the recent Supreme Court ruling which implied that there were certain health conditions that had an implied warranty when any sale of livestock was made in Nebraska and we feel that because of the situation that exists in the livestock industry that when the livestock is sold and someone wants to get a warranty, they can do so but the implied warranty should not go with the sale and we would like to have the bill scheduled for hearing and get testimony from both sides.

PRESIDENT: Senator Marvel.

SENATOR MARVEL: I will wait until the next bill.

PRESIDENT: Any further discussion? This is another machine vote requiring 30 votes for the introduction of Senator Schmit's bill. 482, is it, Mr. Clerk?

CLERK: The request is 482. It is an unidentified bill yet.

PRESIDENT: Request 482. Record your vote. Have you voted? Record, Mr. Clerk.
